

Celebration Jell-O®

5 small boxes gelatin in five
different colors

1-2/3 C sour cream
Water

Combine one box gelatin with 1 cup boiling water. Pour off 1/2 cup of the mixture and set aside. (Do not refrigerate.) To the other 1/2 cup, add 1/3 cup sour cream and blend well. Pour into very lightly greased 9 X 11-inch pan. Chill until set. To the reserved mixture, add 2 tablespoons water. Pour over bottom layer and chill until set. Continue adding layers, with the sour cream mixture and then the clear mixture until all five boxes of gelatin are used. Can be served cut into squares or into festive shapes.

Hints: Black cherry, strawberry, orange, lemon and lime are pretty in that order. Can mix and match sugar-free gelatin and regular gelatin. Low-fat sour cream works as well as regular sour cream. Each layer takes 20-30 minutes to set.
